8				3				6
			2				4	
		1				8		
				4				3
			7				6	
		8				4		

**9 Battenburg Sudoku**

[46 points]

Apply classic sudoku rules. Everywhere 2 odd and 2 even digits form a 2x2 chessboard pattern, a Battenburg marking is given. If there is no marking, the above pattern is not allowed.

5						3		

**10 Consecutive Chains Sudoku**

[40 points]

Apply classic sudoku rules. Digits in the grey areas must form a chain of consecutive digits from 1 to 9 by moving horizontally or vertically from one cell to the next.

					7			

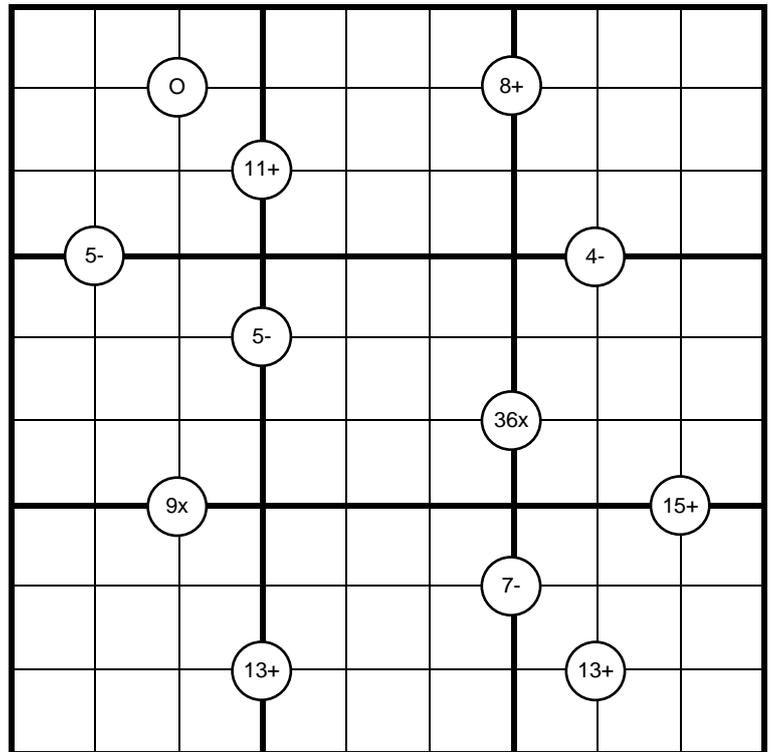

**11 Mathrax Sudoku**

[58 points]

Apply classic sudoku rules. Some intersections are marked by number and operator (+, -, x, /) in a circle. The number is the result of the operation, applied to both pairs of diagonally opposite cells. An "E" or "O" in the circle indicates that all four adjacent digits are even or odd.

11A →

11B →

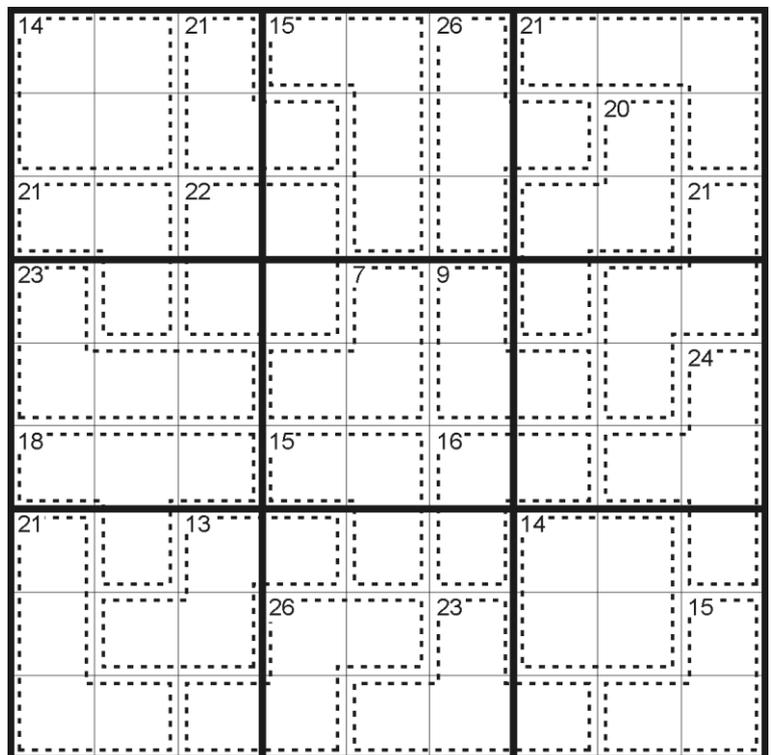

**12 Killer Sudoku**

[62 points]

Apply classic sudoku rules. Digits placed in each marked cage must sum to the total given in its top-left. Digits must not repeat in cages.

12A →

12B →

**13 Max Ascending Sudoku**

[49 points]

Apply classic sudoku rules. Clues outside the grid indicate the length of the longest series of ascending digits in the corresponding direction.

									3

**14 Big-Small Japanese Sums Sudoku**

[51 points]

Apply classic sudoku rules. Clues outside the grid indicate the sums of groups of digits in the given order. Clues on top refer to groups of big digits (5-9). These groups are separated by at least one small digit (1-4). Clues on the left refer to groups of small digits, that are separated by at least one big digit.
